

## What is Bancatakaful?

The sale of certificates through banks is called Bancatakaful. It is an arrangement under which a bank acts as an agent of the insurance company, so that the insurance company can sell its certificates to the bank's client base using the bank's network.

Bancatakaful was launched in Adamjee Life Assurance under the Window Takaful Operations and has bloomed substantially since its incorporation. All of the certificates proposed under agreements with banks are completely Shariah compliant with funds that are regulated by the Securities and Exchange Commission of Pakistan and audited by KPMG Taseer Hadi and Co. Chartered Accountants.

## Adamjee Life's Bancatakaful Partners
